CORE SKILLS

DESIGN

- Systems & Level Design
- Core Loop
- Economy
- Progression
- Retention
- Difficulty Curve
- A/B Testing
- LiveOps
- KPIs (D1, D7, LTV)
- Onboarding (FTUE)

DEV

- WebGL
- Addressables
- Web3
- Profiler
- Playable
- System Design
- Editor Tool
- AppLovin Max
- AbMob
- FireBase
- AppsFlyer

LANGUAGES

- Vietnamese (Native)
- English (Upper-Intermediate)

EDUCATION

- Computer Programing
- Seneca College | Toronto, ON
- 2018 - 2021
- 3.9/4 GPA

Trương Anh Bằng (Ethan)

Game Designer | Unity Developer

PROFILE

Game Designer and Unity Developer with 4+ years in mobile games, bridging design and engineering. Turns designs into playable products distributed across Android, iOS, Steam and TikTok.

- Design:** levels, game systems, economy balancing, onboarding, retention, A/B testing and LiveOps, with GDDs and design specs.
- Dev:** Unity and C# gameplay, UI/UX, optimization and rapid prototyping; built mobile and WebGL games with ads, analytics and IAP SDKs.

EXPERIENCE

Game Designer Sep 2025 – Present  
VGames | Full-time Vietnam

- Design levels, game systems and features for live mobile games; write GDDs and design specs for developers and artists.
- Balance difficulty, economy and progression using player data; playtest and tune each update before release.
- Collaborate with developers and artists to ship updates.

Web3 Game Developer Feb 2025 – Jul 2025  
Yield Guild Games | Contract Ho Chi Minh City

- Built gameplay features for a Web3 idle game in Unity and C# on the WebGL pipeline.
- Implemented responsive, cross-browser UI/UX; optimized models, sound and images to cut load time.
- Connected the game to its Web3 layer with the team lead and client.

Web3 Game Developer Sep 2023 – Dec 2025  
Mavis X (Sky Mavis) | Contract Ho Chi Minh City

- Prototyped and built gameplay features for Axie Infinity (Web3 turn-based game) in Unity and C#.
- Built UI/UX screens and a Unity Editor tool (Figma Importer) that imports UI layouts automatically.
- Integrated game features with smart contracts alongside blockchain engineers.
